

# Supporting downstream projects: the EBRD approach

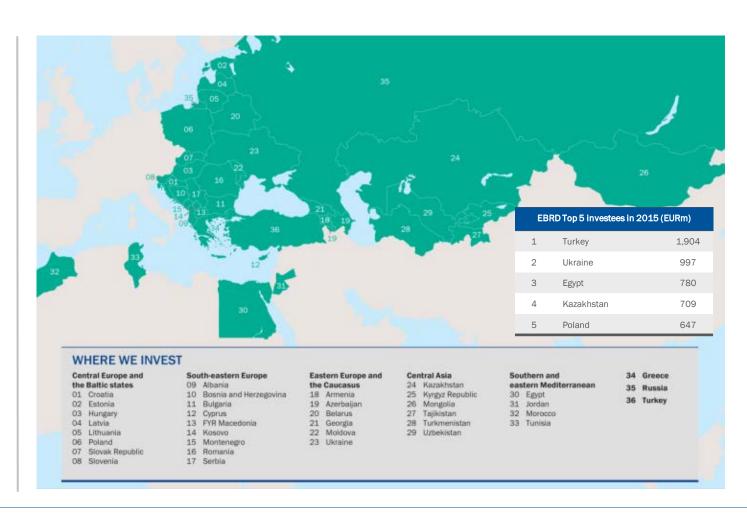

# Introduction to EBRD

### Where we work?

Introduction to EBRD Refineries Case studies

- Operations in 36
   countries across
   central and eastern
   Europe, central Asia,
   and the
   Mediterranean.
- In 2011, the Bank expanded its region of operations to include Egypt, Morocco, Tunisia and Jordan (Southern and Eastern Mediterranean region or SEMED).
- In 2015, the Bank was granted a special mandate to operate in Greece and Cyprus until 2020.
- Also, in 2015, Lebanon was granted full EBRD membership and will become country of operations.

# EBRD Natural Resources Track Record

# A key investor in the extractive industries sector

Introduction to EBRD

Refineries

Case studies

# • Long track record: 175 projects for a total of

EUR 7.65 billion net cumulative investment.

### • Strong team:

30+ bankers distributed across the EBRD region:

- o Permanent presence in Russia, Kazakhstan, Mongolia, Ukraine, Egypt and Turkey.
- o 2 in-house mining and petroleum engineers involved in technical appraisal, due diligence and monitoring.
- Access to additional expertise (consultants).

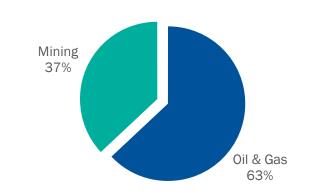

### · Key sectors:

- o Oil & Gas up-, mid-, and downstream.
- o Metal ore mining.
- o Services Industry.

# Refinery study carried out by Jacobs consulting-Example: Egyptian Refinery Major Upgrade

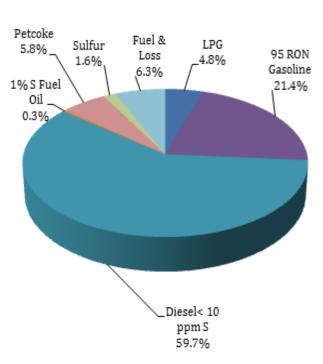

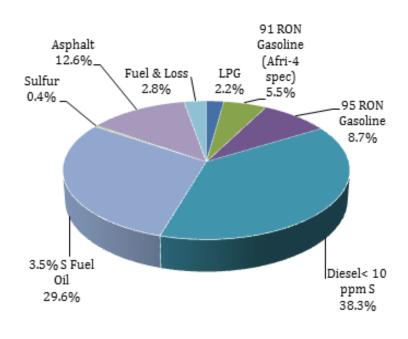

Introduction to EBRD

Refineries

Case studies

### Yields before and after investments in Hydrocracking & Delayed Coking units

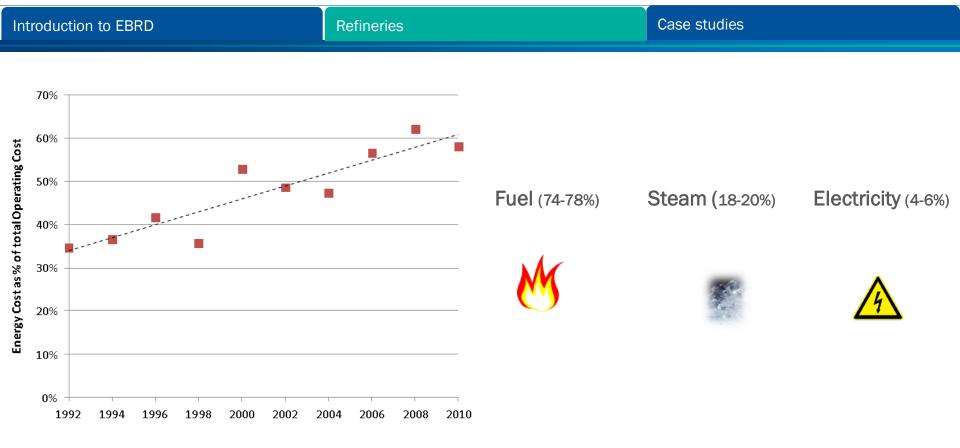

- Opportunity for Upgrade exists in the refinery through suitable disposition of Heavy Vacuum Gas Oil (HVGO) &
   Vacuum Residue (VR) to achieve high-value and high-quality refined products
- Elimination of fuel oil and asphalt by selection of the right processing configuration is expected to boost margins by approximately 40%.

# Refinery study carried out by Jacobs consulting-Energy efficiency in refineries

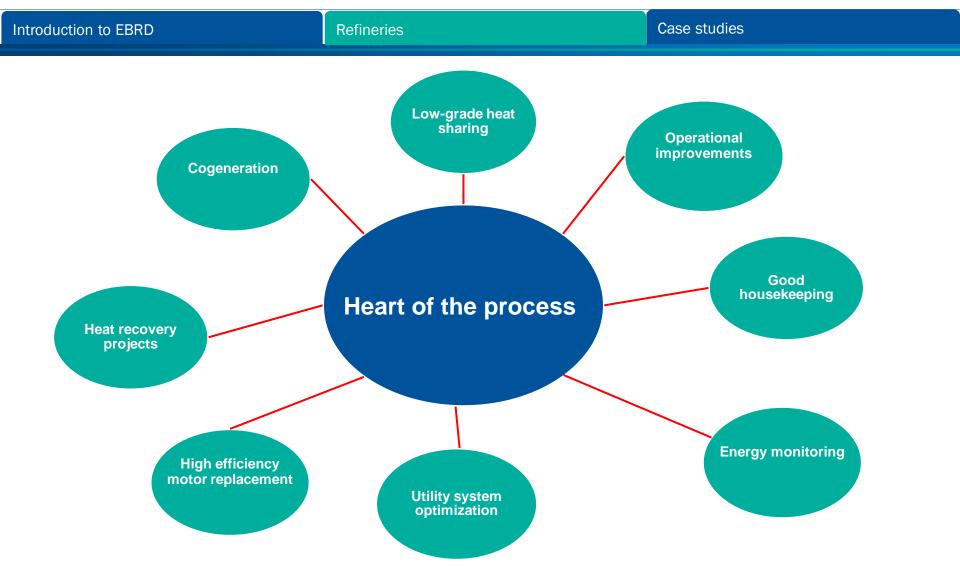

- Refineries energy costs of total operating costs has nearly doubled over the past 20 years
- Energy savings are at the heart of upgade programmes.

# EBRD Transactions: Case Studies

# $T\ddot{u}pra$ ş, Turkey-Resource efficiency investment programme

Introduction to EBRD

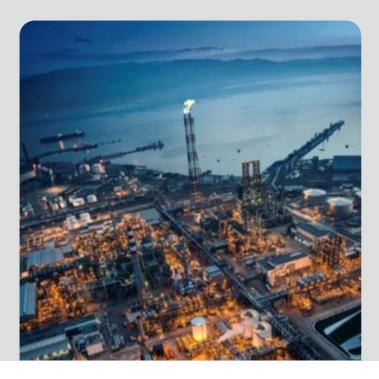

Refineries

Case studies

Signed in

2016

### **EBRD Finance**

USD 150 million loan to Tüpraş, Turkey's largest industrial company and the owner of the country's four active refineries.

### **Project**

USD 232 million resources efficiency programme, including a new on-site thermal power plant, waste heat recovery system, stack gas treatment, water treatment unit, new fluid catalytic cracker and hydrocracker unit at Kirikkale and Izmir plants.

### **Environmental Impact**

Reduction in NOx and CO2 emissions (270,000 tonnes/year) and water consumption (2.6 mcm/year) as a direct result of the project. Comprehensive Environmental & Social Action Plan (ESAP) to bring the plants in line with EU standards.

### **Transition Impact**

(1) Largest resource-efficiency programme in the Turkish industrial sector to date, fully in line with the Bank's Green Economy Transition approach. (2) Demonstration of increased competitiveness stemming from efficiency upgrades. (3) Demonstration of OHS standards in line with EU Seveso III directive and beyond national requirements.

# EBRD Transactions: Case Studies

# $Sonker, Egypt-Development\ of\ a\ bulk\ liquids\ terminal$

Introduction to EBRD

Refineries

Case studies

Signed in

2016

### **EBRD Finance**

USD 94 million EBRD financing, consisting of a USD 71.9 million senior loan and a USD 21.8 million mezzanine facility to Sonker Bunkering Company SAE (Sonker), a private hydrocarbon storage and trans-shipment company owned by the Amiral Holding and the Egyptian Government. The EBRD financing is part of a larger package with IFC and CIB.

### **Project**

USD 504 million for the construction and operation of a bulk liquids terminal at the port of Sokhna, on the Red Sea. This infrastructure project is critical to Egypt's energy security to meet its requirement for gasoil, LPG and LNG imports.

### **Environmental Impact**

Comprehensive Environmental & Social Action Plan (ESAP) has been agreed with the client.

### **Transition Impact**

(1) Promote private ownership in Egypt as Sonker is one of the few independent private players in the sector. (2) Demonstrate the benefits of efficient operation of the hydrocarbons import handling sector. (3) Standards of corporate governance.
